## Knoxville Campuses Welcome Back Students

The Knoxville campuses were buzzing with energy as we welcomed students back for the Spring quarter. Though the break was brief, our dedicated faculty and staff made sure the return felt special. With warm smiles and plenty of snacks, we kicked off the new term by creating a welcoming, supportive environment to keep spirits high and momentum strong. Thank you to all who helped make the first week a memorable one!

## PA STUDENTS GIVE BACK WITH HEART

On the weekend of April 26<sup>th</sup>, students from the Knoxville Master of Health Science in Physician Assistant Studies program, along with faculty member Sara Hughes, volunteered their time and hearts at Katerpillar Kids Club, a horse therapy camp that supports children coping with the loss of a loved one.

Through meaningful community outreach like this, PA students are not only meeting their 50-hour service requirement for graduation, they are also stepping into real-world experiences that build empathy, compassion, and leadership.

A big thank you to the incredible volunteers who made a difference: Caleb Petross, Eval Preston, Marisa Plagens, Nick Reams, Ella Schroeder, Abbey Schmidt, Caitlin McGovern, and Joshua Leggett.

## Passport to Success

### *Mapping the Journey*

Not all adventures require a plane ticket; some begin right here on campus! At South College Knoxville, the journey from one educational milestone to the next is just as exciting as any travel abroad. On June 6<sup>th</sup>, the Admissions and Student Services Departments hosted a Passport to Success event designed especially for our incoming Tennessee Promise students.

During this interactive event, students received personalized passports and visited various campus stations, collecting stamps as they engaged with different departments. At each stop, they asked insightful questions, learned about key resources and services, and discovered how each department supports their academic success. It was a creative and meaningful way to help students visualize the road ahead and feel more connected to South College.

A special highlight of the event was the opportunity to participate in a signing ceremony with our very own Campus President, Mr. Neil Heatherly, officially welcoming these students into the next phase of their educational journey.

With helpful “travel tips,” expert guidance, and a supportive atmosphere, the Passport to Success event gave students the tools and confidence to navigate their programs and make the most of their Tennessee Promise.

Here’s to smooth travels on the road to success!

## Developing Leadership Skills for Career Success

Leadership is not just defined by your job title or your accolades. It is a dynamic set of skills that can shape your career and your ability to inspire others. Redefining leadership means you are recognizing that influence and initiative are just as important as authority. Whether you're leading a team or contributing as an individual, strong leadership can set you apart and accelerate your professional growth. It is critical to know why leadership matters and how to effectively communicate your abilities to advance your career and make a lasting impact.

First, it is important to establish that leadership is not just what is in your job title. Everyone has the potential to lead. Leadership is about influence, not authority. You can lead through actions, ideas, and collaboration. People at all career levels can be leaders and this can be demonstrated through communication, support, and problem-solving. Additionally, this can be shown through adaptability, accountability, and initiative.

Now, let's connect the dots to your career. Why does developing leadership really matter when it comes to getting hired or promoted? Leadership qualities make you employable. Employers are not just hiring someone to do tasks. They are looking for people who solve problems, work well with others, and show potential for growth. Leadership signals to employers that you can bring more than just the basics, you can bring growth. Leadership also demonstrates your soft skills in action. Think about communication, emotional intelligence, and adaptability. These are all parts of being a good leader. They are also the very traits hiring managers are looking for, often more than technical skills. Leadership also helps you ace interviews. Why? Because when you're asked behavioral questions like "Tell me about a time you overcame a challenge," leadership experiences make your answers stronger and more memorable.

### Let's Talk Promotion

A lot of professionals get hired based on skills, but they get promoted based on leadership. You can be the most technically skilled employee in the room, but if you don't collaborate, show initiative, or support others, you may not be seen as someone ready to lead. Leaders also become trusted contributors. The employees managers turn to when they need ideas, support, or someone to rally a team are those who embody leadership qualities. That kind of visibility can open doors to new opportunities, projects, and promotions.

### Taking Initiative

Taking initiative is a key part of leadership. It is about seeing opportunities and acting on them. Instead of waiting for someone to assign you tasks, ask yourself "What can I do to improve things around here?" Volunteer for projects, offer solutions, or take responsibility for something that could benefit the team. Being proactive shows that you are invested in the success of the team, not just in completing your own tasks. Another important strategy is problem-solving. As a leader, it's not enough to simply point out issues; you need to help solve problems. Start by breaking down the problem into smaller pieces and focus on finding solutions. Don't be afraid to involve others in brainstorming ideas. Leaders at all levels take ownership of challenges and look for ways to overcome them. Leading isn't always about having formal authority; it's also about mentoring and supporting peers. You can support your colleagues by offering guidance, sharing knowledge, or helping them develop skills. You don't need a title to be a mentor, just a willingness to help others grow. This creates a culture of collaboration and trust, where everyone can succeed.

**By: Emily Bolton**  
**Senior Career Services Advisor**

### Open Communication

Finally, communication is crucial in leadership. Effective leaders communicate clearly and consistently, whether in emails, meetings, or one-on-one conversations. Actively listening is just as important as speaking clearly. Be transparent about goals, challenges, and feedback; good communication fosters alignment and ensures everyone is on the same page.

At the end of the day, leadership is not defined by your title. It's about your mindset and actions. Whether you're taking initiative, solving problems, supporting others, or communicating effectively, your leadership will shine through. Think about the opportunities you have right now to apply these strategies.

- Are there areas where you can take more initiative?
- Can you help a peer solve a problem?
- How can you improve communication with your team?

Remember that leadership is not about job titles. You don't have to wait for a promotion to start leading; you can show leadership from wherever you are, just by taking initiative and being accountable.
