Audio:	Speakers and Internal or External Microphone

Other Recommendations:

- Warranty for your device
- Flash Drive
- Carrying Case

Important Note:

South College does not recommend students use a Chromebook, smartphone, or tablet as the only device to complete coursework. While those devices will work with some of the programs and South College's learning management system, Canvas, students may encounter instances where the devices are not compatible when completing coursework. Testing security software will possibly not function properly using these types of devices.
